<p>Providing a state interface requires coordination and often approval from the state authority responsible for the state system. The agency should contact the state to obtain authorization as well as a physical connection (ie: phone circuit) for the interface. This purchase is for software only and does not include any computers, modems, routers or other hardware devices that may be needed or otherwise required to establish a physical connection between your agency and the state/regional system. Any additional mnemonics, ORI #'s or similar device identifications required by the state should also be obtained by the agency. Installation and configuration of the software inclusive in this purchase can only be completed once all physical connections and necessary state/regional approvals are complete.</p>		
Primary Agency License This is an agency license with no limit on the number of client workstation devices connected.	{ @ \$12,000.00 = One Time License Fee \$ This is a one time license fee and is not billed annually. @ \$1,800.00 = Annual Support Fee \$ This amount is billed annually.
